

MI-12016

Heavy-Duty Triple Monitor Mount for Monitors up to 49" Ultrawide

This heavy-duty triple monitor mount is engineered for 2+1 stacked setups, supporting one ultrawide display up to 49" above or below two 24"-35" monitors. Gas spring arms deliver smooth ergonomic height adjustment, while full motion tilt, swivel, and rotation provide flexible positioning and easy collaboration. A reinforced tilt mechanism prevents sag, keeping heavy monitors stable, aligned, and professional.

- Holds two 35" monitors side by side and one ultrawide up to 49" on top or bottom for immersive multitasking
- Gas spring arms let you smoothly tilt, swivel, and rotate each screen for perfect positioning
- Each arm supports up to 44 lbs

- Flexible mounting options - Installs via top clamp or grommet, ensuring a secure fit for most workstations
- Built for professionals and enthusiasts - Great for analysts, developers, gamers, and creators who need panoramic viewing and large screen real estate
