

MI-12020

Heavy -Dual Stacked Monitor Wall Mount with Gas Spring Arms

Create a more efficient and ergonomic workspace with the Dual Stacked Monitor Wall Mount. Designed for high productivity setups, this heavy-duty mount securely positions two monitors in a stacked setup while freeing up desk space. Smooth gas spring adjustment, independent screen positioning, and cable management help create a clean, comfortable workstation for offices, gaming, streaming, trading, medical facilities, and more.

- Supports two monitors from 17" to 49" each, including standard and ultrawide displays
- Supports monitors up to 44 lbs each
- Gas spring height adjustment allows smooth and effortless screen positioning

- Integrated cable management
- Durable wall mounted design installs securely to a single stud
- Each monitor can tilt, swivel, and rotate independently
