Heavy-Duty Wall Workstation

Create a more efficient workspace with this heavy-duty wall workstation, ideal for warehouses, production floors, offices, and home offices. The gas spring monitor arm supports large screens and allows smooth full-motion adjustment for ergonomic positioning. A wall-mounted CPU holder and built-in cable management help keep your setup clean, organized, and hazard-free.

- Space-saving, wall-mounted solution for a variety of industrial and office environments
- Supports large monitors up to 49" and 44 lbs
- Spring arm allows easy height adjustment

- Full motion design offers tilt, swivel, and screen rotation
- CPU wall mount and cable management keep the setup organized
- Ideal for warehouses, production floors, offices, and home offices
