Dual Monitor Mount with RGB Lighting

Set the perfect angle and set the mood with the Boost Series Dual Monitor Gas Spring Arm. Built for gaming, streaming, and content creation setups, this dual arm solution combines smooth full-motion positioning with integrated RGB lighting for a more immersive desktop experience. Independently position each screen for a setup that adapts to your workflow, viewing preferences, and play style.

- 17 selectable RGB lighting modes with native Windows 11 Dynamic Lighting support
- Precision gas spring technology supports effortless one-handed positioning
- Full-motion capability enables positioning in any direction, including tilt, swivel, and rotation
- Supports two flat or curved monitors from 17" to 35", weighing up to 26.4 lbs each, with VESA 75x75mm and 100x100mm patterns
- Includes both C-clamp and grommet mounting hardware for desks from 0.4" to 3" thick
