Full Motion TV Wall Mount

Our Full-Motion TV Wall Mount is engineered to securely support displays up to 120" and 264 lbs. Its articulating design extends, swivels, and tilts to reduce glare and improve viewing from anywhere in the room. A lateral-shift wall plate allows precise screen alignment, while durable construction and wide VESA compatibility provide a secure, professional mounting solution for large residential and commercial displays.

- Full-motion design provides an optimal viewing angle from any seat
- Heavy-duty construction supports TVs up to 120 inches
- Lateral shift wall plate allows precise TV centering

- Compatible with VESA patterns from 200x200 to 900x600mm
- Includes a mounting template, bubble level, and hardware
- Securely holds oversized displays weighing up to 264 lbs
