

MI-16034

MedHub Dual Monitor Wall Workstation

This dual monitor wall workstation is designed for healthcare environments where space efficiency and ergonomic flexibility are essential. Supporting two monitors up to 35", it features spring-assisted height adjustment, a folding keyboard tray, dual scanner holders, and full-motion monitor arms for comfortable, efficient clinical workflows.

- Supports dual monitors up to 35" and 44 lbs each for efficient multi-screen workflows
- Spring-assisted monitor and keyboard positioning for user comfort
- Wall-mounted track system allows monitors, keyboard tray, and scanner holders to be positioned as needed

- Full-motion monitor arms offer tilt, swivel, and rotation for optimal viewing angles
- Space-saving, foldable design requires only minimal footprint when not in use
