

MI-16056

MedHub Powered Mobile Workstation

This powered mobile cart enhances clinical workflows by integrating an on-board power system, featuring an Elora MAXX battery for continuous, cord-free shifts. It offers smooth, hands-free height adjustment, a secure tech enclosure, and modular compatibility with MedHub monitor, tablet, or laptop mounts. Compact and mobile with locking casters, it is ideal for bedside charting.

- Powered mobile workstation with Elora MAXX battery, A/C power module, and on cart charger for full shift use
- Hot swap charging supports continuous device operation without relying on wall outlets
- Foot pedal height adjustment from 32.3" to 46.1" supports seated and standing use

- Integrated technology enclosure helps secure equipment, manage cables, and organize power
- Four large locking casters provide smooth mobility and stable positioning
- Compatible with MedHub monitor, tablet, laptop mounts, and storage accessories

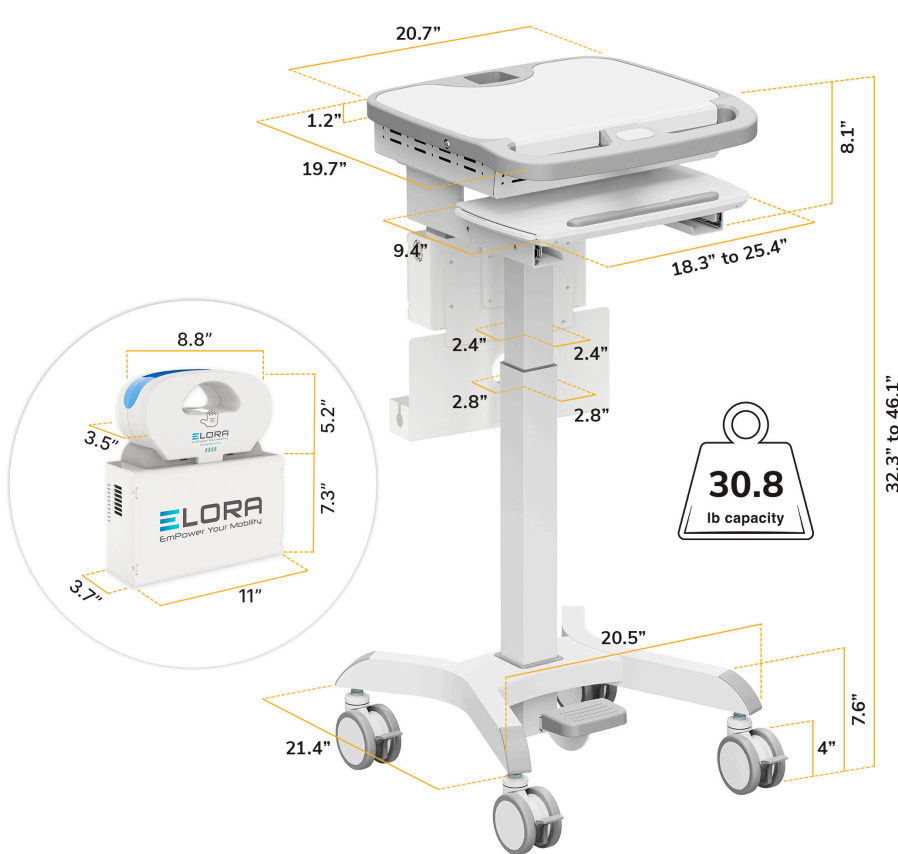

Market-leading
4-year battery
warranty
