

MI-18123

Dual Motor Electric Standing Desk with 60" Tabletop - White

Create a more comfortable and flexible workspace with smooth dual motor height adjustment and a spacious 60" tabletop. Easily switch between sitting and standing with three programmable memory settings, while the beveled front edge improves comfort during long work sessions. A rear cutout helps organize cables and allows easy monitor mount installation for a clean, efficient setup.

- Smooth dual motor height adjustment from 29.3" to 48.2"
- Spacious 60" tabletop provides room for monitors, laptop, and office essentials
- Three programmable memory settings save preferred sitting and standing heights
- Beveled front edge helps reduce pressure on wrists and forearms
- Rear tabletop cutout supports cleaner cable management and easy monitor mount installation
