Dual Motor Electric Standing Desk with 72" Tabletop - Black Base

Create a spacious and ergonomic workstation with smooth electric height adjustment and an extra-large 72" tabletop. The powerful dual motor system transitions quietly between sitting and standing positions, while three programmable memory settings make it easy to return to your preferred heights throughout the day. A beveled front edge, integrated cable management cutout, and built-in anti-collision protection provide added comfort, organization and convenience.

- Smooth dual-motor height adjustment from 29.3" to 48.2"
- Extra large 72" tabletop provides room for multiple monitors, laptop and accessories
- Three programmable memory settings save preferred sitting and standing heights
- Beveled front edge helps reduce pressure on wrists and forearms
- Rear tabletop cutout supports cleaner cable management and easy monitor mount installation
