

MI-20852

In-Wall Media Box (Small)

This compact in-wall media box creates a clean, professional TV setup by recessing streaming devices, networking gear, and power adapters behind the wall. Wi-Fi-transparent construction preserves strong wireless signals, while adjustable internal mounting, multiple knockouts, and a ventilated snap-on cover provide secure device storage, easy cable routing, and a flush, finished installation.

- Clean recessed storage - Hide streaming boxes, routers & power adapters
- Wi-Fi transparent material - Ensures strong wireless signal for streaming
- Flexible device mounting - Adjustable internal bracket and straps

- Easy cable routing - Multiple top, bottom and side knockouts
- Ventilated snap-on cover - Low-profile, tool-free cover improves airflow
