

MI-2758

Freestanding Dual Monitor Arm With Height Adjustment

Whether you are working from home or in an office, this dual monitor stand with spring assisted arm allows you to adjust your monitor height to your personal ergonomic viewing position, perfectly align your screens side by side and increase productivity. It comes with a stable, freestanding base which means you can easily place it anywhere without having to worry about clamp or grommet mounting.

- Fits screens from 17" to 32" and 4.4 - 17.6 lbs
- Swivels up to 25° left and right
- +/-180° screen rotation for horizontal and vertical positioning
- Height adjustment range 5.9"
