

MI-416

Weatherproof Column TV Mount

Easily mount TV's on pillars and columns outdoors or indoors without drilling. This weather-resistant column TV mount secures to round or square pillars using heavy-duty ratchet straps and supports TVs up to 83 inches and 110 lbs. Its full-motion arm offers tilt, swivel, and extension, making it easy to position the screen for better visibility, reduced glare, and comfortable viewing across patios, pergolas, gazebos, balconies, and outdoor entertainment areas.

- No drill mount secures TVs to round or square pillars with heavy-duty ratchet straps
- Full-motion arm provides swivel, tilt, and extension adjustment
- Weather-resistant powder-coated finish and stainless steel hardware

- Supports TVs up to 83" and 110 lbs for large outdoor entertainment setups
- Fits pillar diameters from 4.9 inches to 13.8"
- Ideal for outdoor spaces where wall mounting is not an option, including patios, pergolas, gazebos, balconies, and rental properties
