

MI-420

Pop-Out Video Wall Mount

Designed for commercial video wall installations, the Mount It! Pop Out Video Wall Mount gives installers the access, alignment, and security needed for clean multi display setups. Its scissor style extension mechanism allows each display to pull forward independently up to 8.7" from the wall, making it easier to align, manage cables, and service individual screens without disturbing the surrounding displays.

- Pop out scissor style design extends up to 8.7" from the wall for easier service access
- Built in +/- 3° leveling adjustment helps create a seamless video wall
- Low profile design sits just 3.1" from the wall when retracted

- Supports 37"-70" displays up to 154 lbs
- Padlock compatible locking mechanism helps secure displays in commercial spaces
- Compatible with VESA patterns from 200 x 200mm to 600 x 400mm
