Single Monitor Desk Mount

Turn your workspace into a comfortable and ergonomic environment with this monitor mount. Say goodbye to eye and neck strain and keep your monitor at a comfortable eye-level since this mount has a large height adjustment range. The heavy-duty design supports up to 19.8 lbs. with ease. The base comes with a C-clamp that can also be used as a grommet and can be mounted on tables up to 1.96" thick. The arm features clips for cable management to help keep your desk looking clean and tidy. Depending on the user and desk height, this mounting bracket can be used for sit-stand desk applications. Monitor orientation can be changed from landscape to portrait any time necessary.

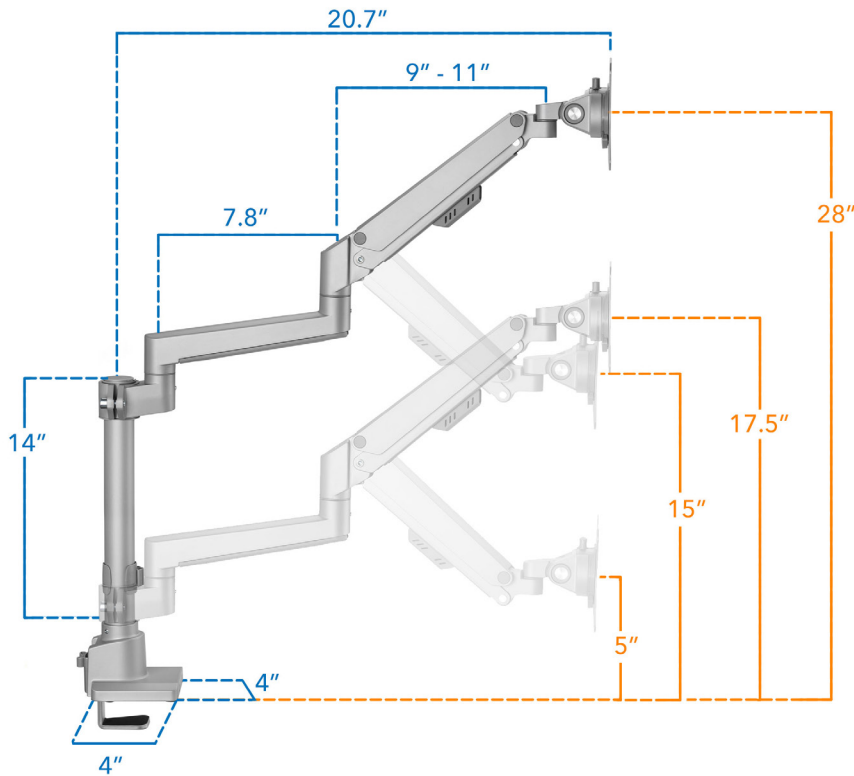

- Gas spring monitor arm for easy height adjustment
- Dual base installation options: Clamp (0.4 - 2 inch desk thickness) and Grommet (0.4 - 1.77 inch desk thickness)
- Base can be installed from the top
- Detachable VESA plate offers easy monitor connection to the mount
- Cable management clips for a clean look
