Under Desk Keyboard Tray

This under desk keyboard tray saves space and helps improve ergonomics. Positioning the mount is easy, simply turn the knob to adjust tilt angle and height, and re-tighten to lock the position. The tray positions your keyboard and mouse lower and closer to your body, allowing you to adopt and maintain a neutral working posture. Correct wrist and typing posture is essential to preventing carpal tunnel and this keyboard tray comes with soft wrist rest pads to reduce strain and soreness while typing and using the mouse.

- Space saving
- Promotes ergonomic posture
- Fully adjustable movement (swivel, tilt, & height adjustment)
- Stow away when not in use
- Seperate keyboard and mouse trays
- Soft wrist padding for extra comfort
