DIMENSIONS & WEIGHT CAPACITY

Rated weight capacity is 165 lbs.
Caution:
Ensure all mounting surfaces are capable of holding the weight of your mount.
DO NOT EXCEED MAXIMUM LISTED WEIGHT CAPACITY.
SERIOUS INJURY OR PROPERTY DAMAGE MAY OCCUR!

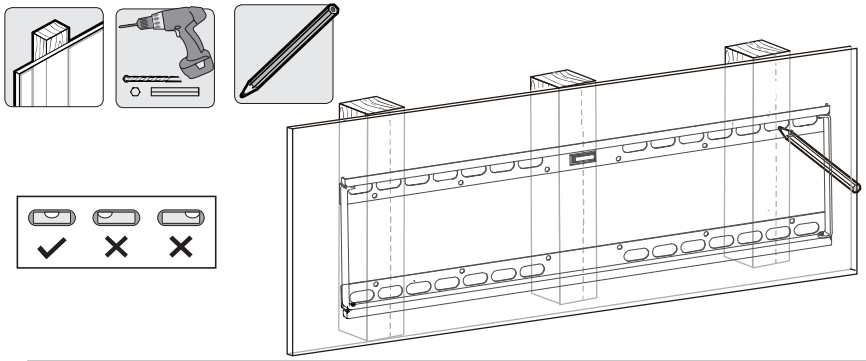

Step 1
Assemble the Wall Plate

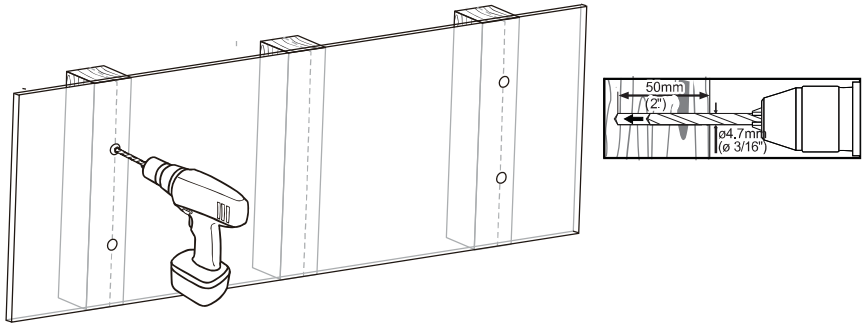

- Align the Wall Plate Brackets (#K) horizontally.
- Remove the bolts and washers from each end of the Wall Plate Sides (#L).
- Assemble the wall plate by attaching the Wall Plate Sides to the Wall Plate Brackets using the bolts and washers.

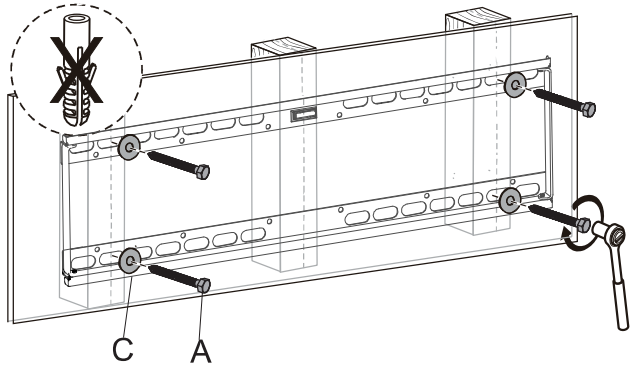

Step 2a
Wood Stud Installation Option

- With a stud finder locate the stud and center the mount on the stud at the desired height. Using a bubble level to ensure straightness, hold the Wall Plate to the wall and mark the center of the 4 mounting holes with a pencil as shown here.
- Use a 3/16” drill bit and drill on the marked locations to a depth of 2”. Secure the Wall Plate to the wall using Lag Screws (#A) and Washers (#C). Tighten the screws until secure.

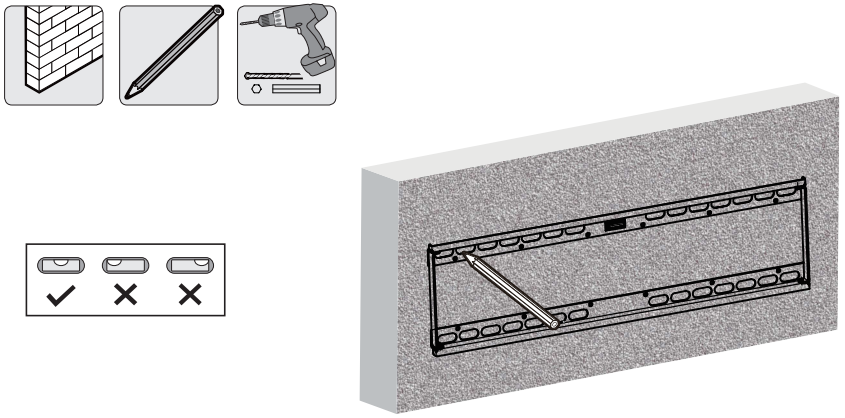

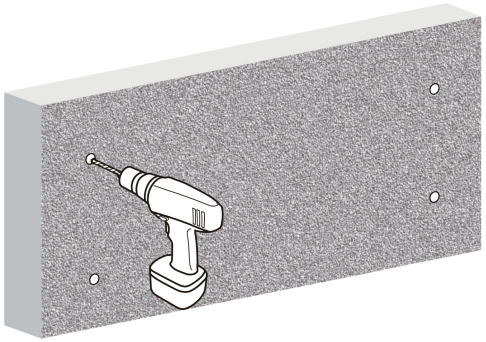

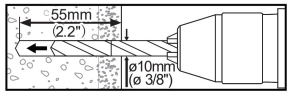

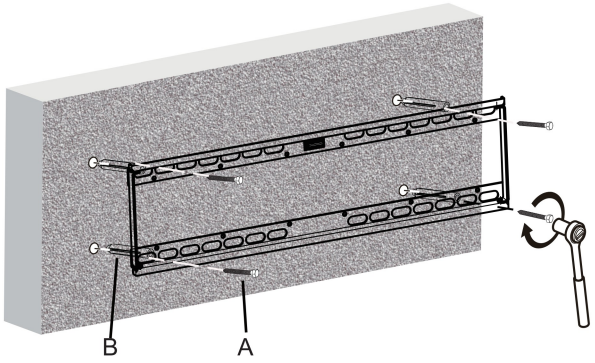

Step 2b
Concrete/Brick Installation Option

- With a stud finder locate the stud and center the mount on the stud at the desired height. Using a bubble level to ensure straightness, hold the Wall Plate to the wall and mark the center of the 4 mounting holes with a pencil as shown here.
- Use a 3/8” drill bit and drill on the marked locations to a depth of 2.2”. Secure the Wall Plate to the wall using Lag Screws (#A) and Conrete Anchors (#B). Tighten the screws until secure.

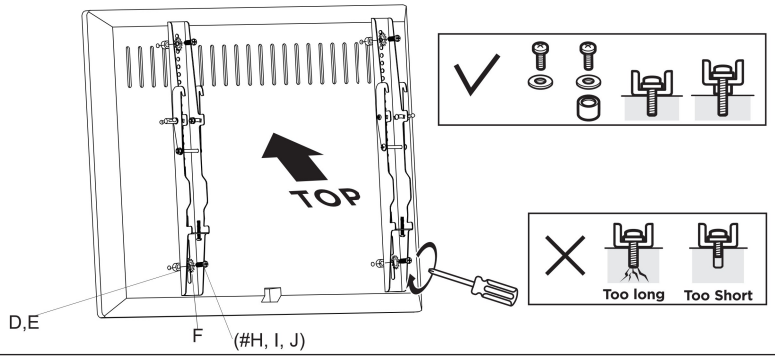

Step 3

Installing the TV to the mount

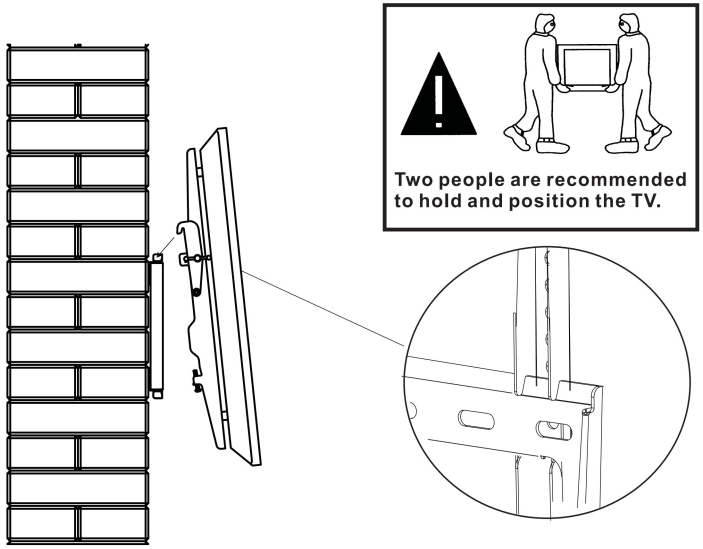

- Lay your TV down on a flat surface and align VESA Arms (#M) over the VESA holes as shown.
- Select the appropriate size mounting bolt (#H, I, J) and washer (# F) for your display's mounting holes and verify the length of the VESA bolt is not too long. If you are unsure of the correct bolt size for your display refer to your TV user manual or contact the TV manufacturer for sizing information. If necessary, use the included spacers (#D,E) between the mount and the TV to adjust the length of the mounting bolt. Attach the VESA Brackets using the selected hardware in the matching configuration shown here.

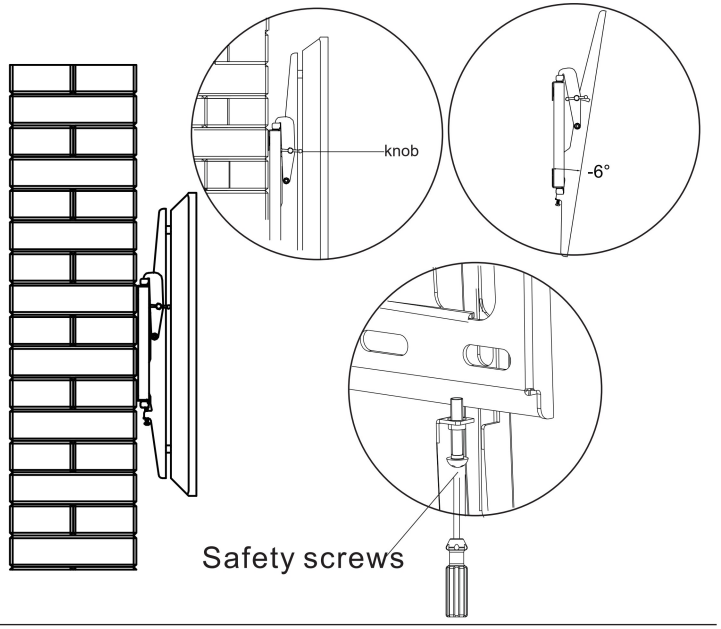

Step 4

Hang the TV on the Wall Plate

- It is recommended that you use the assistance of a second person for this step. Hang the TV on the wall mount as shown so that the top of the VESA brackets hook onto the top of the wall mount, then lower the bottom end of the TV down into place.
- Tighten the Safety Bolts on the underside of both VESA brackets until the bolt is past the lip of the wall bracket, so that the TV cannot be accidentally lifted off the wall.
- Adjust the tilt of the screen using the tilt adjustment knobs on the side of each VESA bracket.
