DIMENSIONS & WEIGHT CAPACITY

Step 1

Install the Desktop

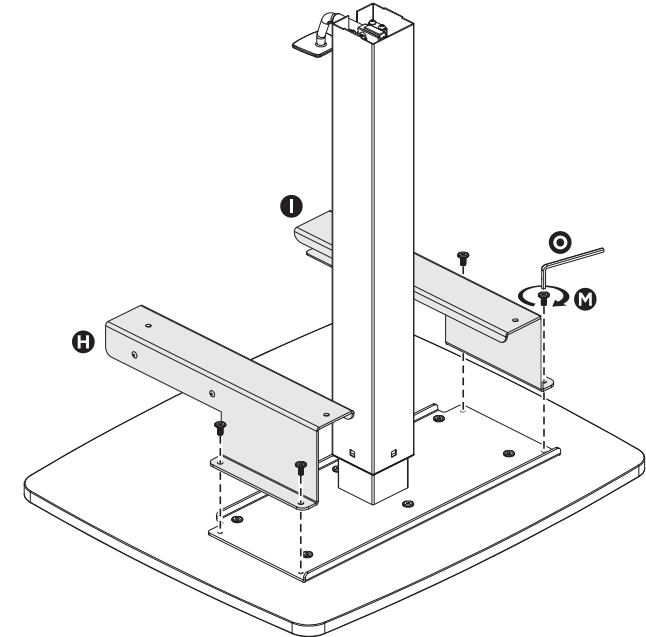

- Install the Desktop Connector (#G) to the top of the Column (#A) using Bolts (#M), making sure the connector is oriented as shown in the illustration. Tighten all bolts using the 4mm Hex Wrench (#O).
- Lay the Desktop (#C) upside down on a soft, flat surface and carefully position the Column (#A) on top, aligning the mounting holes. Ensure the longer end of the desktop faces the same direction as the foot pedal on the column. Secure the column to the desktop using Bolts (#M) and tighten with the 4mm Hex Wrench (#O).

Step 2

Attach the Tray Rails

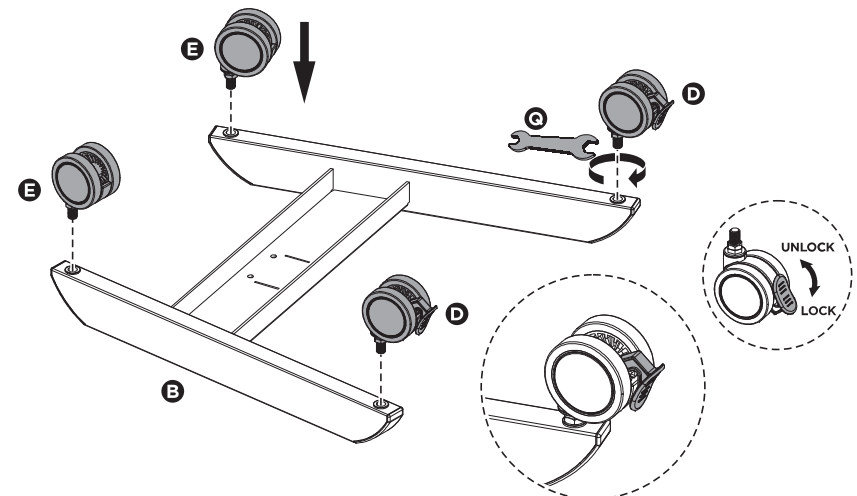

- Position the Tray Rails (#H, #I) on top of the Desktop Connector (#G) as shown, secure them using the Bolts (#M) and tighten with the 4mm Hex Wrench (#O).

Step 3

Installing the Casters

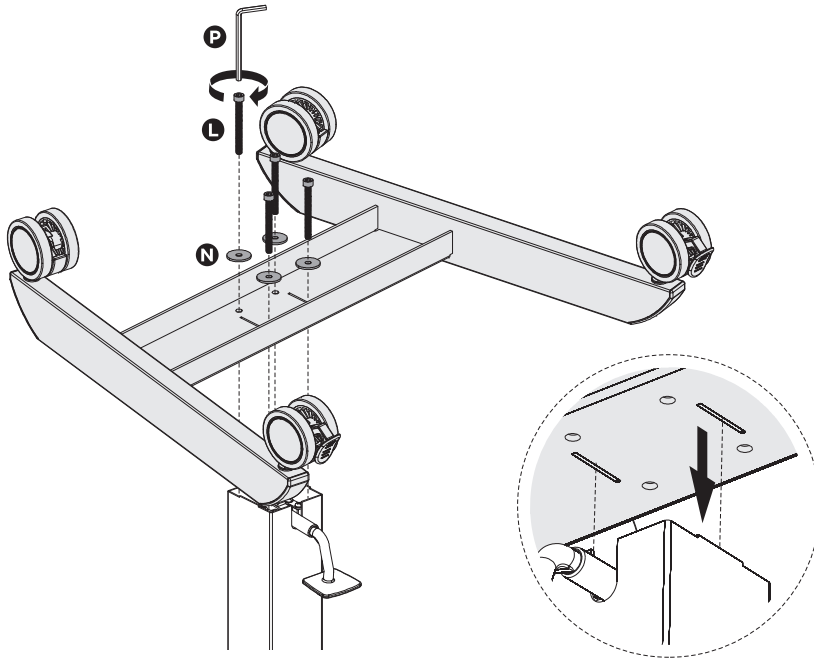

- Turn the Base (#B) over and install the casters. Install Non-Locking Casters (#E) on the shorter ends and Locking Casters (#D) should be installed on the longer ends. Tighten until secure using the wrench (#Q).

Step 4

Connect the Column to the Base

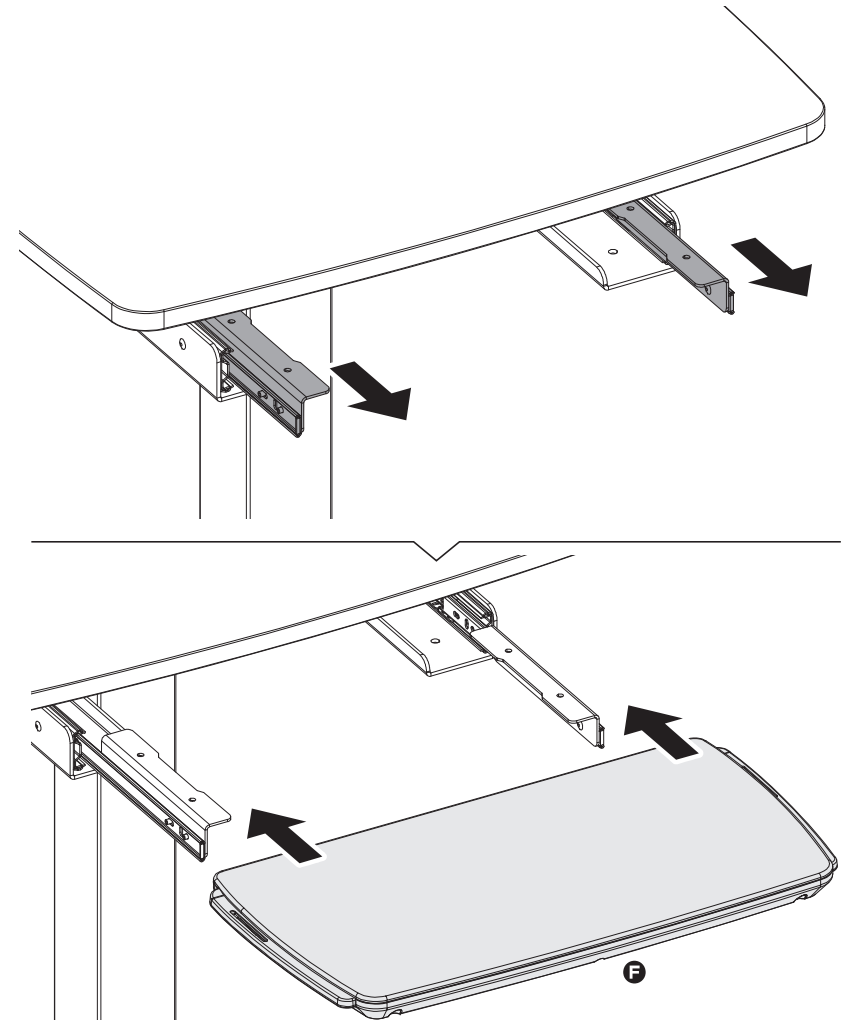

- Connect the Column (#A) to the Base (#B) using Bolts (#L) and Washers (#N) from the underside, through the 4 holes pictured here. Ensure the foot pedal on the base of the column is facing the longer end of the base and tighten until secure using 5mm Hex Wrench (#P).

Step 5

Position the Keyboard Tray

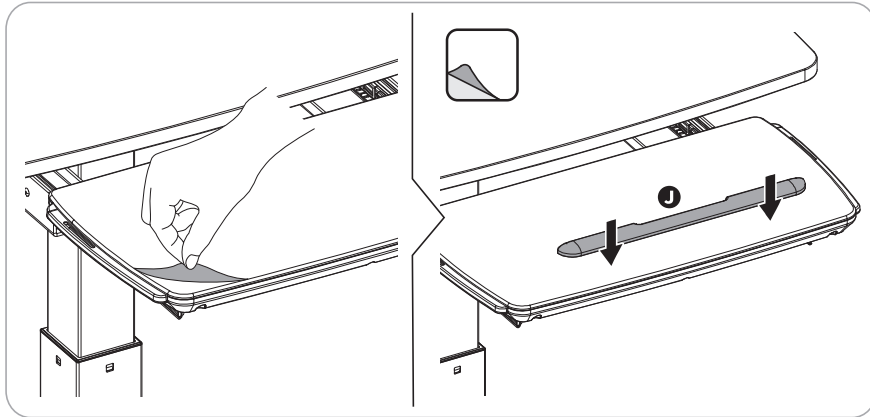

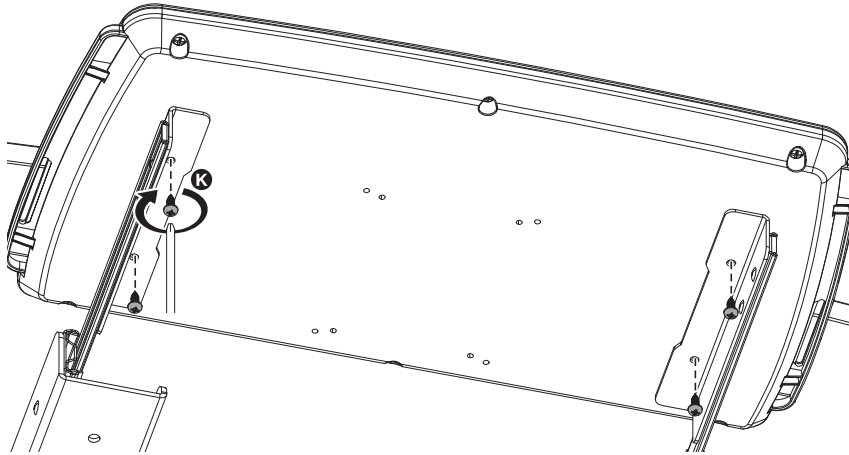

- Fully extend both Tray Rails (#H, #I) and place the Keyboard Tray (#F) onto the top of the rails, aligning the holes on the rails with those on the bottom of the keyboard tray.

Step 6

Secure the Tray and Install the Keyboard Stopper

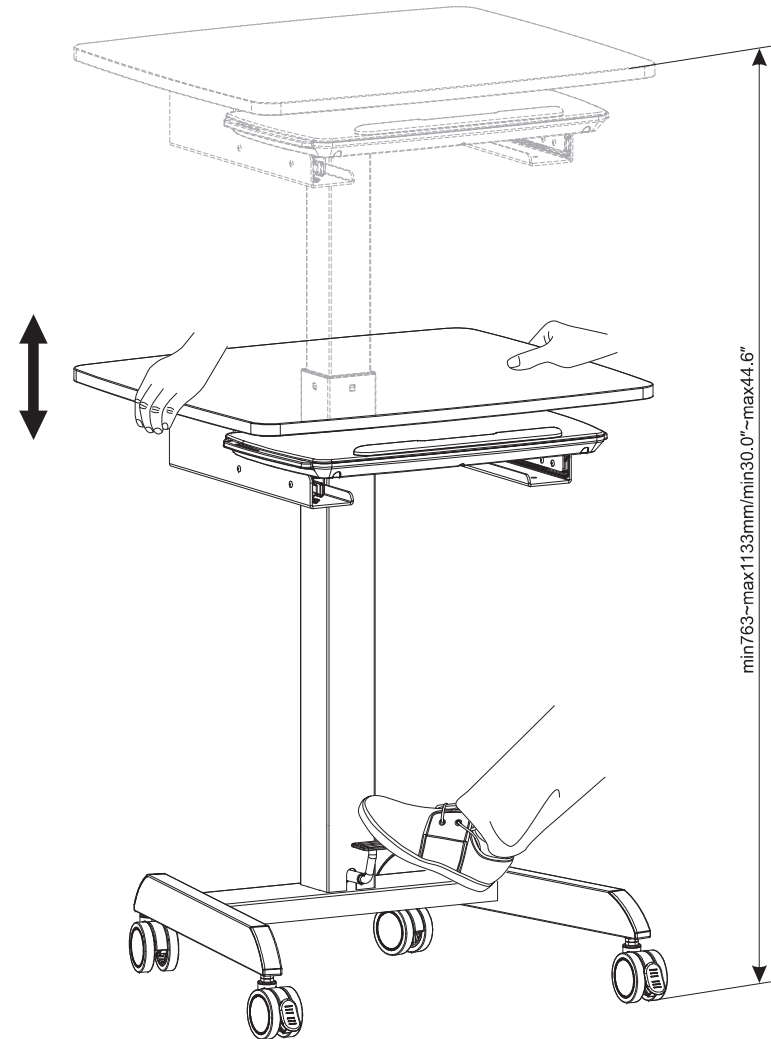

- From underneath the Keyboard Tray (#F), use the Screws (#K) to secure the tray to the tray rails.
- Peel off the protective film from the surface of the Keyboard Tray (#F).
- Remove the adhesive backing from the Keyboard Stopper (#J) and firmly press it into place on the tray as shown.

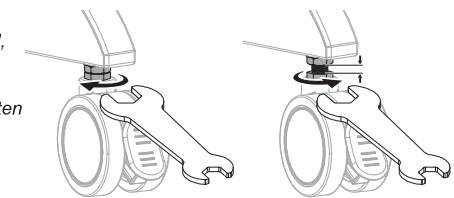

Step 7

Final Adjustments

- The desk can be raised and lowered using the foot pedal at the base of the column. Use the locking casters when needed to prevent the desk from rolling.

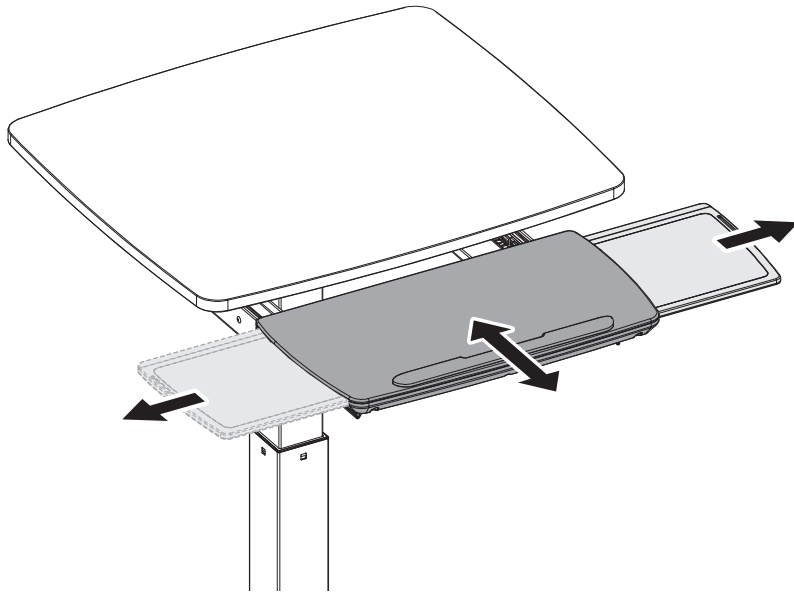

Note: If the cart is not level, adjust the lower nut as shown to raise or lower the height of each caster. Tighten the upper nut after each adjustment.

Step 8

Using the Keyboard Tray

- Pull the Keyboard Tray (#F) forward to use and slide it back to stow it neatly under the Desktop (#C) when not in use.
- Extend the built-in Mouse Trays located on both the left and right sides of the Keyboard Tray (#F) as needed for additional space and comfort.
