MOUNT-IT!

FOLDABLE PLATFORM DOLLY

PARTS LIST

Swivel Casters (x4)

Fixed Position Casters (x2)

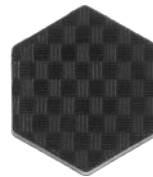

Bungee Cord

Self-Tapping Screws (x24)

Screw Driver

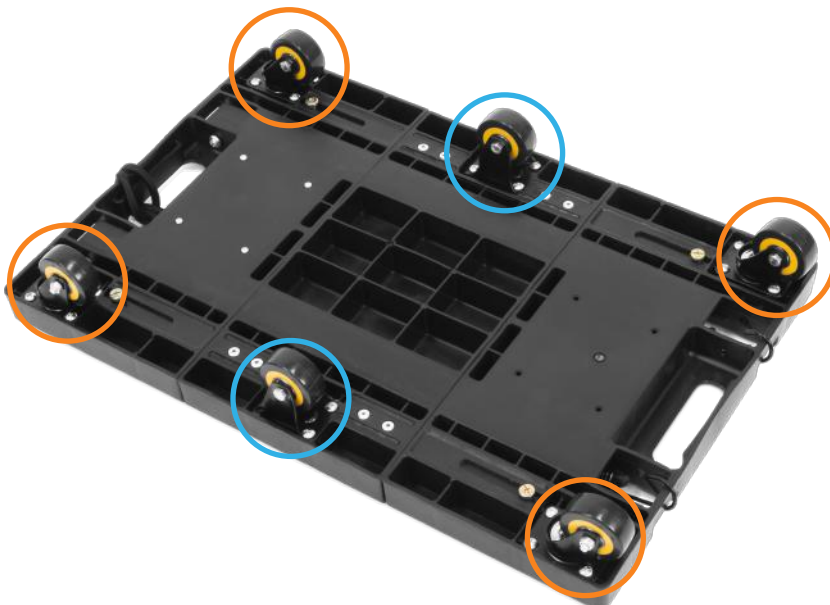

Decorative Covers (x6)

Platform Dolly Base

ASSEMBLY INSTRUCTIONS

- 1 Place the Platform Dolly upside down on a solid surface and align the casters over the rectangular indentations in the positions shown below.

Note: The 4 **swivel casters** will be placed on **each corner**, and the 2 **fixed casters** will be placed in the **middle** of the platform base.

Using 4 self-tapping screws on each, attach the casters to the base of the Platform Dolly. The screws may require some force to install, but do not overtighten.

INSTRUCTIONS FOR USE

OPENING

Detach the ends of the bungee cord and pull the handle up and away from the platform.

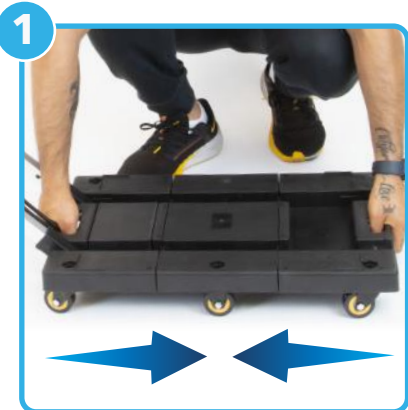

Extend the handle by pressing the button on top and raising it until it latches in place.

To lengthen the platform for larger loads, pull the platform segments apart until they are at the appropriate length.

CLOSING

Ensure the platform segments are pressed back together fully.

If handle is extended, press the button on the end of the handle and close the handle down to its shortest setting. Lower the handle back down across the base and press it into the indentation.

Reattach the bungee cord hooks on the opposite end of the Platform dolly base to secure it
